School immunisation programme 2020

Dear Headteacher, Senior Leadership Team and welfare support,

Due to the present situation with the coronavirus- Covid19, we regret to inform you that we will be postponing any immediate school age vaccinations planned in your school and all community clinics as from Monday 23rd March 2020.

At present, we envisage that this will go on until at least the end of April 2020. Please be assured that we will recommence our programme and reschedule any postponed sessions once schools reopen.

Please could you inform and reassure your parents and carers, so that they are also aware of the current situation.

We will continue to update you. If your school has any questions or concerns, please contact us.

We wish you all the best of health for the coming weeks.

Yours sincerely,

Christiana Ogunleye

Immunisation Team Leader for Lambeth & Southwark
