

"If it squirms, it's biology. If it stinks, it's chemistry. If it doesn't work, it's physics." - Magnus Pyke

Curious about...*Physics?*

1. The Book: A Brief History of Time - Stephen Hawking

2. The Film: Quantum Theory

Note down your thoughts on anything you find controversial or see flaws in the lack of supporting evidence.

3. The Podcast: Learn out Loud.

Go to shorturl.at/mCIQT and choose a podcast to listen to. What made you choose that one?

4. The Radio: The Physicist in the Kitchen.

<https://www.bbc.co.uk/programmes/m000dpm5>

5. On Social: Check out the Institute of Physics
